International Sanctions:

We recognize that there are government sanctions against many countries. We are diligent in monitoring these sanctions and will ensure that we are in compliance with them. We make sure that no money or aid of any kind goes to any individuals or groups that have sanctions placed upon them by monitoring how the funds are used and to whom they are given. We have reviewed the sanctions that are in place now against Cuba, the Balkans, Belarus, Burma, Iraq, Iran, North Korea, Syria, the Former Liberian Regime of Charles Taylor, Cote d'Ivoire, Sudan, Zimbabwe, and upon Democratic Republic of the Congo. We will remain diligent in ensuring that our volunteers, employees, and anyone associated with our organization obey these sanctions. All volunteers and employees will be informed of these sanctions and taught what to do to avoid violating the sanctions.
